Our File No. 430071.0086

Dear Sir:

On behalf of QUESTAR EXPLORATION AND PRODUCTION COMPANY, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Cotton Valley Formation, Reservoir A, and the Hosston Formation, Reservoir A, in the Elm Grove Field, Caddo and Bossier Parishes, Louisiana:

1. To permit the applicant to drill, designate and utilize two (2) additional alternate unit wells for CV RA SU65 and HOSS RA SU59, at the location and amended location which shall be in lieu of the location approved by Order Nos. 361-B-437 and 361-A-418, effective October 6, 2005, shown on the plats attached hereto, which are in exception to the well spacing provisions of Order No. 361-B, effective October 1, 1973, and Order No. 361-A-1, effective October 1, 1972.
2. To explicitly find that the abovesaid wells are necessary to drain a portion of the Cotton Valley Formation, Reservoir A, and the Hosston Formation, Reservoir A, in the Elm Grove Field underlying CV RA SU65 and HOSS RA SU59, which cannot be efficiently and economically drained by any existing well in such units.
3. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Cotton Valley Formation, Reservoir A, in the Elm Grove Field, Caddo, Bossier and Webster Parishes, Louisiana, was fully defined in Office of Conservation Order No. 361-B, effective October 1, 1973, and was further defined in subsequent Orders of the 361-B Series.
